Explanation of Estimate:

LB 931 would add requirements for professional practice with regard to prescription of opiates. Practitioners would be limited to prescribing no more than a seven day supply of opiates for a minor for outpatient use for an acute condition. If the practitioner has not previously prescribed opiates for the patient, they would be required to discuss with a parent or guardian the risks associated with use of opiates and why the prescription is necessary.

Practitioners must document on the patient's medical record the condition triggering an opiate prescription of greater than seven days for minor patients and indicate that a nonopiate alternative was not appropriate.
