*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

LB 969 requires that individual and group sickness and accident insurance policies issued in the state include coverage for prosthetics, which at least equals coverage provided under the federal Medicare program. The bill will have no fiscal impact for state agencies or the University of Nebraska because health insurance plans for these entities currently cover prosthetics. Any fiscal impact for political subdivisions is unknown and depends upon coverage offered to employees.
