This bill places timelines on investigations of facilities licensed under the Children's Residential Facilities and Placing Licensure Act. A decision would need to be made on whether to investigate a report within five days of receipt of a report. Investigations would need to be completed within 30 days after the decision is made to investigate.

Investigations involving law enforcement often are not completed within 30 days. Additional resources would have little or no impact on the Department of Health and Human Services being able to meet the 30-day requirement due to the complexity of the investigations and need to coordinate with law enforcement.

The complete cost to comply LB 59's 30 day reporting requirement is unknown. Of the 75 investigations under the Children's Residential Facilities and Placing Licensure Act in 2017, 31 involved either CFS or law enforcement. The time elapsed between the initiation of such an investigation and its resolution typically exceeds 30 days. Without placing time restrictions on remaining steps in the process, increasing appropriations to the Department will have little or no impact on the length of law enforcement-involved investigations. A preliminary report could be issued in such cases.  LB 1079, introduced in 2018, included similar provisions. The fiscal note for LB 1079 included 1 FTE Child Care Services/Inspection Specialist. This fiscal note does not include additional staff due to the 19% decrease									
in the number of licensed entities in the past year. In January 2018 there were 58 licensed entities under the act. As of January 2019 there are 47.
