LB 880 would have no fiscal impact to state agencies.

LB 880 would allow a natural resources district encompassing a city of the metropolitan class to issue watershed enhancement bonds. Bonds would be payable from an annual special watershed enhancement body levy upon the taxable value of all taxable property in the district. Because LB 880 is permissive in nature, the fiscal impact would depend upon the actions of the board of directors of the natural resources district.

COMMENTS			
PAPIO-MISSOURI RIVER NRD – The fiscal impact of LB880 will be determined by the actions of an NRD which encompasses a city of the metropolitan class. The actual fiscal impact to an NRD cannot be calculated at this time.
