FEDERAL FUNDS				
OTHER FUNDS				
<b>TOTAL FUNDS</b>		15,000		15,000

\*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

This bill establishes the Veterinary Drug Distribution Licensing Act. A license would be required to distribute, sell, or offer for sale any veterinary legend drug. The bill provides for reciprocity. A provisional license may be issued prior to July, 2009, if certain conditions are met. Licenses are issued for two years, expiring on July 1 of odd-numbered years. The fees for the license would be a \$50 base fee and an additional fee not more than \$500 for variable costs.

There is an estimate of 30 entities that would need to be licensed under this act. The department has received the cash fund authority for an additional pharmacy inspector. A portion of this position when filled could be used to carry out the licensing and inspection activities required in this bill.

Fees should be set at a level to cover the costs within the limits in the bill. Licenses are issued for two years. Prior to July1, 2009, provisional licenses may be issued. The provisional licenses are anticipated to generate \$15,000 in FY 2008. In FY 2009, fees would be collected for initial licensing in the amount of \$15,000 and every other year thereafter.
