This bill would require the Department of Health and Human Services to prepare information in a pamphlet or brochure format containing objective information about cord blood banking. The information would have to be available by January 1, 2009. The information would also be placed on the department's website. The pamphlets or brochures would be distributed free of charge to physicians and hospitals.

The Department of Health and Human Services would incur costs for the initial development of the information to be included in the pamphlet or brochure, for periodically updating the information and for printing and distributing the information. The annual costs are approximately \$10,000 GF.
