LB857 would require each state agency to review rules and regulations adopted and promulgated by the agency according to a schedule as identified in the bill and provide reports to the Legislature according to the specified schedule. For rules and regulations adopted, promulgated and to become effective from January 1 to December 31, 2021, the bill would require the related agencies to report to the Legislature December 31, 2031. For rules and regulations adopted, promulgated and to become effective in successive years following the year ending December 31, 2021, related reporting would be required by December 31 of the year ten years in the future. Related reports are to identify the statutory authorization for the rules and regulations and whether the rules and regulations are accomplishing the statutory purposes or need revision. Impacts of LB857 would vary by affected state agencies relative to the volume and nature of rules and regulations to be reviewed and methods by which affected agencies would elect to assess whether the related rules and regulations are accomplishing relevant statutory purposes.
