School-based health centers are eligible for reimbursement under the Medicaid Program. Current law restricts the hours of operation, limits the types of services and restricts the centers from being a child’s medical or dental home. This bill removes those restrictions and limitations.

The bill does not have a fiscal impact. The bill would provide greater access to services and shift the costs from other providers.

**Explanation of Estimate:**

The proposed bill has the potential to expand Medicaid services for school-based health centers beyond the currently restricted school campus during school hours. It is not known how much additional volume of services could be anticipated. It is reasonable to anticipate that any increased utilization of Medicaid funded services administered by school-based health centers would be a shift from Medicaid funded services rendered elsewhere.
