This bill establishes a process where parent and child relationships may be established in the event of gestational surrogacy. The Department of Health and Human Services Finance and Support shall provide forms to certify the parent and child relationship. The forms will be filed with the department and also placed in the medical records of the gestational surrogate. These forms shall be available for inspection only upon the order of court of competent jurisdiction.

The estimated cost to develop and print the required form will cost approximately \$3,000 in FY 08. The costs can be handled with existing departmental resources.

Technical note: If the intent is to file the form with Vital Statistics, the department designation needs to be changed to the Department of Regulation and Licensure.
