	EXPENDITURES	REVENUE	EXPENDITURES	REVENUE
GENERAL FUNDS				
CASH FUNDS				2,000
FEDERAL FUNDS				
OTHER FUNDS				
TOTAL FUNDS				2,000

*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

LB 314 would expand the definition of water wells, and would define any excavation used to pump ground water for irrigation purposes as a water well. The Department of Natural Resources estimates that it may receive a small amount of cash fund revenue as a result of the registration of sand pits used for irrigation purposes. The agency estimate assumes 50 excavations per year may be subject to the \$40 registration fee, resulting in \$2,000 in cash fund revenue per year, beginning in FY08-09. It is estimated that the additional registrations could be processed by the Department within the existing agency budget.
