LB 234 amends the Urban Redevelopment Act.

The bill amends section 77-6906 under the Act to add any federal census tract directly adjacent to an area described in subdivision (1) of the section. Subdivision (1) is the current definition in statute of economic redevelopment area under the Act. The current definition of economic redevelopment area under the Act is an area in the State of Nebraska in which the average rate of unemployment in the area is at least 150% of the average rate of unemployment in the state and the average poverty rate in the area is 20% or more for the federal census tract in the area.

The Department of Revenue (DOR) estimates the following decrease to General Fund revenues as a result of the bill:

- FY26: (\$148,000)
- FY27: (\$201,000)
- FY28: (\$205,000)
- FY29: (\$209,000)

The DOR estimates minimal costs to it as a result of the bill.

There is no basis to disagree with these estimates by the DOR.

The Department of Economic Development estimates the provisions of the bill can be accomplished with current resources. There is no basis to disagree with this estimate.

FEDERAL FUNDS	_____	_____	_____	_____
OTHER FUNDS	_____	_____	_____	_____
TOTAL FUNDS	=====	=====	=====	=====

Explanation of Estimate:

LB234 establishes a new definition of Economic Redevelopment Area (ERA). These redevelopment areas will continue to include all areas with an average rate of unemployment at least one hundred fifty percent of the average state rate of unemployment during that same period, that also have a poverty rate of twenty percent or more for the federal census tract, both as measured by the United States Bureau of the Census. The bill would extend this definition to include all census tracts that are directly adjacent to the previously defined redevelopment areas.

The programs impacted by the definition change proposed in LB234 would change eligibility for programs that include the ImagiNE Nebraska Act, the Sports Arena Financing Assistance Act, the Nebraska Innovation Hub Act, the CHIEF Act, the Urban Redevelopment Act, the Business Innovation Act, and the Poverty Elimination Plan Act.

By extending the definition to include adjacent census tracts, the current 74 census tracts included in ERAs, LB234 would add an additional 94 census tracts to the ERA designation. The current ERAs have a median income of \$46,019. Under the new definition, the median income in ERAs would increase to \$56,086, or by 21.9%.

The provisions of LB234 can be accomplished with current DED resources.

CASH FUNDS	_____	_____	_____	_____
FEDERAL FUNDS	_____	_____	_____	_____
OTHER FUNDS	_____	_____	_____	_____
TOTAL FUNDS	=====	=====	=====	=====

Explanation of Estimate:

Given that Lancaster County's unemployment rate is comparable to the state average, it is unlikely that the county will see significant new areas qualify as "economic redevelopment areas" under the revised definition. As a result, the direct fiscal impact is expected to be minimal.
