LB 69 would amend the Agricultural Opportunities and Value-Added Partnerships Act to allow grants to encourage the production and marketing of specialty crops and to support businesses that produce and market specialty crops. The additional grant category would not alter the amount of funding required for the program, but would expand its potential uses.

COMMENTS			
<p>AGRICULTURE: Concur with agency analysis for the Department of Agriculture.</p> <p>DEPARTMENT OF ECONOMIC DEVELOPMENT: Concur with agency analysis in that the bill will not change total aid distribution, just how much in grant dollars needs to go to specialty crops.</p>
