LB 1199 amends section 7-203 to expand the definition of a “designated legal profession shortage area” by increasing the county population threshold from 15,000 to 75,000, while retaining the requirements that the area not be in a metropolitan statistical area and that the board determine it is underserved.

The Commission supports increasing the population threshold to 75,000 and states there is no fiscal impact. However, if eligibility expansion increases applications, the program may need an additional appropriation.

Explanation of Estimate:
The Commission supports increasing the population size to seventy-five thousand to qualify as an underserved legal service area. Currently, the appropriation for the Legal Education for Public Service and Rural Practice Loan Repayment Assistance fund is \$150,000 for the 2026-2027 fiscal year. Increasing the number of possible applicants will require the program to need an additional appropriation to keep the awards beneficial to the recipients.
