LB 204 changes the penalties for operating a commercial motor vehicle while a driver's license is suspended, revoked, canceled or subject to disqualification or while an out-of-service order is in effect. Since the bill provides that violations will be Class II misdemeanors in all instances, it is possible there could be an increase in fine revenue for some violations that are currently classified as Class III misdemeanors. Any increase in revenue is projected to be minimal and will accrue to the county where the violation occurs to be used for the support of public schools.
