LB206 provides for the waiver of tuition and fee charges at Nebraska public postsecondary educational institutions for children of deceased Nebraska law enforcement officers and firefighters killed in the line of duty. Tuition and fee charges are to be waived for those eligible subject to limitations as provided in the bill. To the extent that eligible students would enroll at the state's public postsecondary institutions and qualify for this waiver, institutional tuition and fee revenue would be impacted. Any related impact would be dependent upon (1) the number of eligible individuals, (2) the number of such individuals that might elect to attend Nebraska public postsecondary institutions, (3) the level of tuition and fee charges at the respective institutions that would be subject to waiver under the bill, and (4) the extent to which an eligible student may receive other forms of student financial aid that would serve to reduce the balance of tuition and fees required to be waived by the public institution attended by the student. It is anticipated that relatively few individuals would be eligible for waiver of tuition and fees under LB206 at any point in time. As such, the impact upon any given public postsecondary institution's cash fund revenue for any given fiscal year is estimated to be nominal.
