Current law allows early childhood education programs established by school districts or educational service units which are not receiving a grant through the early childhood education grant program or funding through the Tax Equity and Educational Opportunities Support Act (TEEOSA) to serve children who meet the age requirements to attend kindergarten, but are not of mandatory attendance age. The attendance is allowed for one school year only, 2008-09. LB 530 allows the attendance option for these children in any school year.

The bill may have a minimal fiscal impact in terms of reduced state aid in the future for districts in which children that are eligible to attend kindergarten in a particular school year, opt to attend an early childhood program as provided by the bill. It is assumed the option to serve these children will not cause an appreciable increase in the cost of early childhood programs for school districts because it will be a local decision to accept the children in an early childhood program.
