LB 352 adopts the Nebraska Shooting Range Protection Act. The Game and Parks Commission is required to adopt as rules and regulations the shooting range performance standards adopted by the National Rifle Association for the safe operation of shooting ranges. The Commission is required to review these shooting range standards at least once every five years and revise them if necessary. The fiscal note received from the Game and Parks Commission indicated that any increased workload associated with this new responsibility would be absorbed by reallocating staff and funding resources from other areas. No fiscal impact is anticipated.
