TOTAL FUNDS				

*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

This bill establishes the Remote Pharmacy Act. A coordinating pharmacy may be linked to one or more licensed remote pharmacies via a computer system with real-time online data base and auditory and video communication. The Department of Health and Human Services is given rule and regulation authority under the act.

A limited number of pharmacies are anticipated to establish a remote pharmacy. The department estimates they can handle the workload with existing staff and resources, so there is no fiscal impact.
