This bill requires the Department of Health and Human Services to compile and publish an annual report with the following information: 1) a list of employers with employees receiving Medicaid assistance, 2) the city or village where the employer is located and 3) the number of employees receiving Medicaid by employer. Employers would be required to cooperate with the department in providing information for purposes of compiling this report. A copy of the report shall be provided to the governor and clerk of the legislature. The report will also be available on the agency's website.

The department estimates the computer programming that would be required to match HHS data system with the Department of Labor would be \$3,800 (\$1,900 GF and FF) in FY 11.
