The Honorable Ben Hansen
Health and Human Services Committee
Nebraska Legislature
P.O. Box 94604
Lincoln, NE 68509

Dear Chairman Hansen:

The Department of Health and Human Services' statement on the explanation of effectiveness of the Temporary Nurse Practitioner (NP) license, below, reflects its sole views. The question has also been sent to the Board of Advanced Practice Registered Nurses (APRN) and its response will be forwarded should they choose to opine.

APRN-NPs practice across the state in both large and small communities. Loss of these providers would limit access by the public to primary care services, especially in rural communities where there may be a limited number of providers in the community or the surrounding area.

There is one set of regulations that governs all four APRN groups effectively. Each specific APRN group has a statute unique to the group. The care provided by this occupation is available across the state and is based on standards of education and practice. The ability of the public to access this care and the low number of disciplines are indications of the effectiveness of its regulation.

Sincerely,

A handwritten signature in blue ink that reads "Timothy A. Tesmer".
