None of these entities are full-fledged state agencies, but they have a degree of independence that keeps them from being classified within any department or agency. Statutory Reference: 85-1539

The Nebraska Community College Student Performance and Occupational Education Grant Committee oversees state funds appropriated by the Legislature to the Nebraska Community College Student Performance and Occupational Education Grant Fund. The fund provides grants to community colleges for applied technology and occupational faculty training, instructional equipment upgrades, employee assessment, pre-employment training, employment training and dislocated worker programs benefiting the State of Nebraska. Grants also are available for programs or activities to enhance student performance in degree, certificate or diploma completion, retention or foundations education or the collection, reporting, analysis and utilization of student data.

The committee also has oversight responsibility for the community college gap assistance program, which is administered by the Coordinating Commission for Postsecondary Education. The program's primary goal is to address workforce shortages in high-need occupations in Nebraska, as well as to train individuals already employed in high-demand areas and increase their advancement potential. Because students enrolled in non-credit courses are not eligible for federal financial aid, community colleges may award gap assistance to students taking non-credit courses that could lead to jobs in these occupations.

The seven-member committee consists of one representative each from the Coordinating Commission for Postsecondary Education, Department of Economic Development, Department of Labor and Department of Education, as well as three representatives from the community college areas appointed to two-year terms.

The Nebraska Environmental Trust Act of 1992 authorized a portion of proceeds from the state lottery to be placed in a fund “for the purpose of conserving, enhancing and restoring the natural, physical and biological environment of the state.” After voters approved the lottery in November 1992, legislation governing the lottery and distribution of proceeds was re-enacted in 1993 under LB138.

Forty-four and one-half percent of lottery proceeds are put into the Environmental Trust Fund after prizes and operating expenses are paid for and the first \$500,000 of proceeds are paid to the Compulsive Gamblers’ Assistance Fund.

The 14-member Environmental Trust Board manages the Environmental Trust Fund and carries out the goals of the trust. The board leverages private funds to support short- and long-term environmental goals and provides funding for proposals according

A law passed by the 2002 Legislature created the Nebraska State Fair Board to manage the state fair, a duty previously performed by the State Board of Agriculture. The new board also promotes training and competition for youth interested in agriculture, horticulture, science, industry, mechanics, arts and skilled crafts.

Nebraska City hosted the first state fair in 1859 and two others in 1868 and 1869. An 1879 act made the state fair an annual event and prescribed the State Board of Agriculture's duties. In 2008, the Legislature passed LB1116, moving the state fair to

Grand Island.

The board’s annual meeting is held in Grand Island during odd-numbered years and in a location of the board’s choice during even-numbered years. The board’s 13 members consist of:

- seven members elected by county fair districts
- four members appointed by the governor, with three representing the three congressional districts and one representing the Grand Island business community
- two ex officio members: the executive director of the Nebraska Future Farmers of America and the state 4-H program administrator of the Cooperative Extension Service, University of Nebraska-Lincoln

Terms for the seven members representing county fair districts are staggered so that elections are held annually.

The Board of Pardons receives and considers applications for pardons, reprieves, commutations of sentence, and remission of fines and forfeitures. After a pardon has

been granted, the board can empower the governor to authorize those pardoned to own and transport firearms.

The 1911 Legislature created the state Prison Board and an advisory board of pardons. The board also served as the advisory board of parole. These boards' functions were merged with the Department of Public Welfare in 1919.

A constitutional amendment adopted in 1920 created a Board of Pardons and designated the governor, secretary of state and attorney general as its members. The 1937 Legislature passed a uniform act for the supervision of Nebraska prisoners paroled in other states.

The 1969 Legislature, pursuant to a constitutional amendment passed in 1968, created a separate Board of Parole.⁷ Pardon authority remained with the Board of Pardons.

Statutory Reference: 39-2106

The Board of Public Roads Classifications and Standards oversees annual construction planning and fiscal reporting for state and local highways, roads and streets, as well as the application of minimum design, construction and maintenance standards for functional classifications (categories) of public roadways. The standards ensure that each road can safely handle the traffic pattern and volume it is expected to carry, as part of a policy enacted in 1969 to provide for the efficient management, operation and control of an integrated system of state and local highways, roads and streets.

Nebraska counties and municipalities, as well as the Nebraska Department of Transportation, must annually file a one- and six-year plan of highway, road and street improvements with the board. Those jurisdictions also must file a standard annual highway, road and street program fiscal report with the board, including (except for NDOT) certification that they have complied with applicable state standards, matching funds and other operations and reporting requirements. The procedure for such annual reports is the joint responsibility of the board and the auditor of public accounts.

The 11 members are appointed by the governor, subject to legislative approval, to four-year terms. Two members represent NDOT. Three members represent counties, with requirements that one be a licensed highway superintendent, that two be county board members, and that one each be from a small, medium or large (population) county. The three municipal members must be either public works directors or licensed street superintendents, and one each must be from a small, medium or large municipality. The other three members are lay members representing each congressional district. The Nebraska Department of Transportation’s Boards - Liaison Services Section provides administrative support.

The 1951 Legislature created the Commission on Uniform State Laws. Commission members work with commissioners in all states to formulate uniform laws on specific subjects. State legislatures may enact these laws.

Each commission member must attend National Conference of Commissioners on Uniform State Laws meetings and promote uniformity in state laws. The commission reports its transactions and its recommendations for legislation to the clerk of the Legislature. The commission also works to bring uniform judicial interpretation of uniform laws.

Commission members include three lawyers appointed by the governor to four-year terms and the revisor of statutes. The commission also includes Nebraskans who have a long service record in promoting state legislation uniformity. These members are elected life members of the National Conference of Commissioners on Uniform State Laws. The commission meets at least once every two years. Members are not paid but are reimbursed for expenses.
