Printed name: _____

2) Do you believe the treatment by staff, mental health providers, and prison administrators toward you, and/or other inmates has been fair, professional, and appropriate? _____ YES, NO.

Comments: Certain staff were vindictive using are limited access deny us. Mental Health take too long to see us and when they do is at our cell where there is no privacy

3) What is your level of segregation status at this time, or during your most recent stay, list all applicable: (For example, protective custody, intensive management, etc.)

~~Administrative~~ Administrative Confinement

4) How many times have you been on segregation status? twice

5) Overall, approximately how long have you been on segregation status? One year

6) During this stay, or your most recent stay in segregation status, how long were you held? 10 months

7) What mental health treatments are available to you when on segregation status?

I have no clue since we aren't given this information

8) How often are you contacted by a mental health practitioner? seen only once
Typically, how much time do they spend with you? Five minutes

9) What programs are available to you in segregation status?

Incentive program which is basically goal setting through a pocket earn certain privileges like extra cell clean, phone call etc but are taken at the most insignificant M.O.R. Some privileges are earned on a period of 7 month

10) What programs are part of your individualized plan, but are unavailable to you at your current housing level? Outpatient Rehabilitation Program

11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

Outpatient programs, Anger Management, Cognitive Skills

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what programs would be helpful for you to return to general population or to society as a whole when you leave prison?

Outpatient Rehabilitation, Anger management, Career or Sub seeking programs

Please provide any additional comments below:

Additional Comments regarding segregation status: I didnt know we had any programs through Mental Health or regular programming the only program Im aware of is Incentive levels and those are easily taken at staff's discretion so if you get them Mad well their goes your levels it takes months to earn certain levels and it takes about 9 months. Some staff take advantage of our situation. Limited Property is also a drastic measure if your caught getting food from another inmate or whats refer to fishing theyll put you on limited property for about 14 days wich means you'll have everything in your cell except for food, socks, shirt, boxer and one blanket being in segregation is bad enough but isnt punishment enough through MR's, loss of good time, Demotion in Incentive levels that on top of that they add limited property.

Mental Health takes forever Im not to see the psychiatrist DAWN waiting since May 2014 Im getting side effects from my medication they so severe I stop taking my medication cause they wouldnt see me. Im still suffering from side effects but also from my depression. Ther is people just like me suffering Mentally because Mental Health takes forever if they under staff thats not all but people be hurting themselves because the issues arent address in a proper time. It would be good that if an individual has serve so much time in segregation that if he able to parole or go to work Release that he be able to get the opportunity

_____ Printed name: _____

- 2) Do you believe the treatment by staff, mental health providers, and prison administrators toward you, and/or other inmates has been fair, professional, and appropriate? _____ YES, NO.

Comments: Nothing has been done correctly. mental health doesn't even see me anymore even though I have a variety of mental health issues

- 3) What is your level of segregation status at this time, or during your most recent stay, list all applicable: (For example, protective custody, intensive management, etc.)

A: 7 PC. As an inmate on protective custody we are still Punks and I was still abused and the staff failed to protect me

- 4) How many times have you been on segregation status? 4

- 5) Overall, approximately how long have you been on segregation status? 3 months

- 6) During this stay, or your most recent stay in segregation status, how long were you held?

3 months

- 7) What mental health treatments are available to you when on segregation status?

They say all but they fail to help me. I told them my medical is not working they said "that's impossible". They still in over 4 months have not seen me

- 8) How often are you contacted by a mental health practitioner? never, I have to reach them
Typically, how much time do they spend with you? a few minutes

- 9) What programs are available to you in segregation status?

None. I'm supposed to do drug treatment programming yet they are holding my back from parole because I'm in seg and PC.

Additional Comments regarding segregation status:

Theres harassment, mal procedure, care less staff, verbal abuse, abuse of ~~prison~~ levels program, refusal of programming refusal of mental health, staff talking with inmates about the status of other inmates and cases of other inmates, No jobs for everyone, wich there should be, because we do not get adequate indigent supplies. They give the one job to inmates whose family sends them money instead of poor inmates. Its a complete conundrum. please help us.

- 6) During this stay, or your most recent stay in segregation status, how long were you held? 4 consecutive Years (60 months)

- 7) What mental health treatments are available to you when on segregation status?

Nothing. Mental Health provides no programs or incentives to a majority (99%) of the inmates on segregation status. I have repeatedly Brought this issue to the attention of mental health staff and mental health staff have taken no action whatsoever.

- 8) How often are you contacted by a mental health practitioner? once every 3 to 4 months
Typically, how much time do they spend with you? 15 to 20 minutes

- 9) What programs are available to you in segregation status?

There are no programs that actively provide an opportunity to better myself. There are no educational programs. Inmates may check out books, However, this does not provide opportunities to learn a second language effectively or any other long term educational benefits.

- 10) What programs are part of your individualized plan, but are unavailable to you at your current housing level? I am currently being denied court ordered programming For/From CSORT, ordered by Judge Allen Gless.

- 11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

I do not ~~require~~ ^{receive} any mental health programs and will be completing only those programs which are necessary for me to either better myself or ~~which~~ ^{which} are court-ordered.

Small group counseling with say
6 inmates and one counselor.

Please provide any additional comments below:

Additional Comments regarding segregation status:

The system is obviously broke. I don't believe seg was created for multiple month stays for a small infraction. They are searching for reasons to put people here and keep them here because of the shortage of space. Nobody anywhere in the system is getting any help. It is the dept of punishment not corrections. We need more help on the front and the back end. I think we need more work release type programs. Housing for inmates who have no place to go when they get out. Compare our stats to other states and it becomes obvious.

The way I see it the longer somebody is incarcerated, the less chance they have to succeed when they get out.

It's also proven that supervised probation and rehab before having to serve time works. Why are we not putting more people on probation to begin with.

Comments: Most could care less about our rehabilitation and are not accessible at any giving time and we only see them at classification hearing. It takes 2 1/2 weeks to respond to kit.

- 3) What is your level of segregation status at this time, or during your most recent stay, list all applicable: (For example, protective custody, intensive management, etc.)

Administrative Confinement / Involuntary Protective Custody

- 4) How many times have you been on segregation status? 2 times.

- 5) Overall, approximately how long have you been on segregation status? 19 months the 1st time / 20 months and counting. So all together 39 months.

- 6) During this stay, or your most recent stay in segregation status, how long were you held? 20 months and counting

- 7) What mental health treatments are available to you when on segregation status?

I'm not exactly sure.

- 8) How often are you contacted by a mental health practitioner? once every couple months
Typically, how much time do they spend with you? They only ask a couple question and walk away.

- 9) What programs are available to you in segregation status?

I've only took part in their transformation jackets since i've been down here this time.

- 10) What programs are part of your individualized plan, but are unavailable to you at your current housing level? CVORT'S and NRT'S. None are available down here.

- 11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

face to face human contact session with mental health staff or more programs that provide inmates with more human contact with each other or staff. To social skills while in segregation and when going back to the yard.

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what **programs** would be helpful for you to return to general population or to society as a whole when you leave prison?

Any program that allows inmate to interact with staff face to face. More effective assessment of mental health and anger-management classes.

Please provide any additional comments below:

Additional Comments regarding segregation status: TSCI administration and mental health go about segregation all the wrong ways. I've been in segregation for 20 months now and are still not sure what mental health programs are provided for me down here. Mental health comes by our room once every couple months. And when mental health does speak with inmates everybody on the gallery can hear those secession going on. I thought by law or some rule that individual secession suppose to be confidential. Mental health has a say in how long you're down here. I had numerous administrative staff say AC is not a punishment but a classification. We're not allowed the same programs provided to those in general pop. Inmates get AC'd for the littlest thing which render the ability to participate in the necessary programs on the individual plan. Administration uses segregation to break a persons mental state of mind. In both my experiences in segregation i've went through periodes of time of severe depression. Thoughts of suicide. lose of social skills due to little to no human contact. Mental health provides little to no advice on how to combat these symptoms. TSCI administration is the only institution that leave inmates on AC or segregation status for long periodes of time. I feel Administrative Confinement is used as a punishment to help deteriorate a persons mental state of mind and TSCI administration is fine with this method. Administration really don't provide any help. They think placing inmate on AC for long periodes of time helps. But it doesn't. Inmate are ignored and administration and mental health don't provide any help to combat the problem. In their mind we're just job security.

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what **programs** would be helpful for you to return to general population or to society as a whole when you leave prison?

I really don't know but I don't think putting me in the hole (Seg) for 20 months for defending myself against a convicted killer only because I won the fight is the ~~the~~ answer. I have always had an extremely good prison record & have always stayed out of trouble but because my fight involved a lifer snitch I suffer for it.

Additional Comments regarding segregation status: Since being in Seg I have witnessed

TSCF staff allow an inmate starve himself for almost 2 months & the inmate was taken out of cell in a wheel chair & put on gurney to go to hospital. Inmate died within a couple weeks. The smu c/o/c/o's were ~~messing~~ messing with his food. I witnessed TSCF staff using meals as punishment by denying an inmate his noon meal because the inmate acted up 35 minutes before chow. Staff stating by acting up it constituted a refusal of his meal. Inmate punched the door 35-40 min before lunch. My next door neighbor was having mental health issues & cut his own neck due to this. I have witnessed a c/o sleeping in between showers 20-25 min almost every shower day (3x a week). I have witnessed Seg c/o sweating so bad it got on our cups & trays & they refused to wear headnet even tho there were repeated complaints.

If case managers don't like what you grieve or write a kite, it disappears & when you write a kite it takes 2-3 wks to be answered. TSCF has impeded, & interfered in my legal rights from day one here. TSCF has refused me to have a telehearing for my court hearings saying I didn't need to be there. Showers & cell cleaning are used as privileges. I have Hepatitis B so keeping my cell sanitized is important. 1-2 times a week is not adequate to properly clean your cell. I have written both the ACLU & Ombudsmans office on these matters. What it comes down to is TSCF SMU staff does what they want when they want & no one is able to anything about it & smu keeps the problems here on unit & try not to let them out. I would like to talk to someone in person if you feel it would help, especially about the inmate dying due to staff negligence & staff sleeping on duty up here. I am willing to take a lie detecto test to substantiate my complaints. I witnessed a c/o mess with this inmates food.

Additional Comments regarding segregation status:

We get treated worse Than Slaves in Seg The guards Never help us inmates out I've Been here 3 1/2 weeks I came to TCSI from OCC still havent received Any of My property I've Been Showering Barefoot for the past 3 1/2 weeks The Showers overflow so I'm standing in someone else's waist which is very unsanitary, the guards here Dont let you use the phone when your scheduled I've put numerous kits in & only received one back The Case Manager's Dont even come back to speak with you I Have Not talked to one since I've Been here. It seems like They just keeping people in Seg or AC Because of The overpopulation of The institution They Dont Have space to put inmates back on The yard which is unfair for The people/inmates That done DS time & Dont Deserve AC time. I Really Hope you can fix These problems

Comments: Keep us in SMH for extremely extended periods of time. 17 months and mental health came to my door to check on me 4 times. Admins and staff are lazy and are only here waiting till the end of their shift to leave.

3) What is your level of segregation status at this time, or during your most recent stay, list all applicable: (For example, protective custody, intensive management, etc.)
AC A6. 17 months and only 3 or 4 MBS in 12 months.

4) How many times have you been on segregation status? 4 or 5 times.

5) Overall, approximately how long have you been on segregation status? This time 17 months

6) During this stay, or your most recent stay in segregation status, how long were you held?
17 months in counting.

7) What mental health treatments are available to you when on segregation status?
have to wait for them to come around. Or you start talking about suicide and they might show up if your lucky. 17 months and I've only had a chance to talk to them 4 times!

8) How often are you contacted by a mental health practitioner? 4 times in the last 17 months.
Typically, how much time do they spend with you? Around 2 mins. They act like there in a rush to move on and take me off

9) What programs are available to you in segregation status?
None Transformation Project packets that are insignificant. Other than that none I know of. I tried to find out and/or sign up but I never recieved my kites back.

10) What programs are part of your individualized plan, but are unavailable to you at your current housing level? SAU program and ART program.

11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?
SAU and ART More chances to talk with mental health. And when they do come they try and talk on the gallery with everyone else listening
SAU & ART

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what programs would be helpful for you to return to general population or to society as a whole when you leave prison?

SAU and ART programs since they keep us in SMU so long we dont get a chance to complete our program and in turn we do not parole on time or as soon as we would be able to if programs get completed

Please provide any additional comments below:

Additional Comments regarding segregation status: Ive been in the hole 17 months with only 3 or 4 m.c.s in last 12 months. A handfull of people with similar situation and MR history that got in trouble after me are back on the yard already. They say everyone is different but IF your black or hispanic or Native your automatically going on AC Ive seen numerous white men get out after DS for fighting but colors are down here for 10 months to 2 years.

They keep us in SMU for such long periods of time that it seems they try to break us. To make us want to comit suicide. Only people with strong will power that are strong minded can survive down here in SMU for such long periods of time.

In other Neb. prisons you get into a fist fight, no weapons and no significant injuries an your only in the hole for 45 days tops. In Tecumseh same situation, its 10 months to 2 years easy on AC.

They force people onto PC (Involuntary PC) an make them stay in the hole for 1-3 years easy unless they go to the PC gallery. Basically blackmail a people. Go to PC or stay in the hole fighting it for a couple years.

The majority of the CO's are disrespectfull and dont try and help us with little tasks or situations.

Theres no reason why we should do so long in SMU for a Non-gangrelated fist fight. When in other Neb. prisons its Just D.S. then back to the yard. Out here in Tecumseh is AC after fir up to two years for Natives, blacks, and hispanics and the occasional white. depending on who he talks to majority on GP. Most white men get out

Additional Comments regarding segregation status:

This D.S. Status "Disciplinary Segregation" is inhuman and torture because they won't let you order any canteen food to eat for 45 to 90 days. I just weighed myself today from Medical and I weighed 150 pounds, I lost 15 pounds in 34 days. Also, if I have to go to protective custody we are not allowed to take any helpful programs to help us here in prison and most importantly, when we leave prison, like the "Substance Abuse program" or the "Violence Reduction" program, they, the prison administration lets P.C. "protective custody" take G.F.D classes but we need more help from programs to help us when we leave prison.

Additional Comments regarding segregation status:

While down here just after we got this survey we were told by the guard "put what ever you want on the survey it won't do any good". Because what are they going to do fire all of us!! Any way do to the fact that I'm in Smu n they won't give me my personal property I can't contact my Mom, or my attorney. I have ask several (10) times to see legal aide they have not let me. When you ask the guards for any thing its not there job or they don't have time you Kite the Warden get no answers or he say that has been taken under advise ment. It took ~~that~~ 6 weeks to see a doctor I mental health. They told me to Kite the other on because I haven't been able to sleep. I feel that you should just start shooting us if you don't want to take care of us. Like me I have nothing to do all day the Librainy takes up to a week to send me a book there is suposed to be a book kart that comes around once a week yet we don't see it fore two or three weeks. I have Kited to see about a t.v. yet my Kite does n't get answered I have no income so I probely can't afford a T.V. Any way.

Additional Comments regarding segregation status:

I have sent request to see mental health, and to take anger treatment and they refuse me, they did have a class but only 3 inmates were in that. This place isn't trying to help anybody. They don't care about anybody their guys that are in poor health and dying and they refuse to help. They give us spoiled food. all they are doing is making the public think that they are doing a good thing so that they can keep getting money to support them and none of that money goes towards the prison its self. It's all corruption and just a way for people to pocket money. Something needs to be done whether its getting new people in control or better yet just have the federal government take over.

I and my children saw a (counselor) on a weekly basis before my arrest. I was a single father and there were 3 other kids. I had nothing to do with them. We all love and now they can't even come visit me. To make things worse when I'm in Seg, I can't even call them. Letters are good. But that (once a week) call to hear the voice and hear it's not on the other end in what words. no return!

Treat me like a person and not a number

Please provide any additional comments below:

Additional Comments regarding segregation status:

Just because we are in Seg doesn't mean we are any less of a person. It means we made bad choice or in my case the C.O. exaggerated the story to the point of no return. Pam Hillman doesn't believe anything my inmate has to say. She feels it is her obligation to keep the whole jail at all times. She is the most unfair, cold hearted person I have ever met.

The way we are treated down here compared to G.P. is the difference between night and day. Down here, not all but most, feel all though it is their obligation to humiliate, disrespect, agitate, at night purposely make as much noise as possible. Bottom line they treat ya horrible.

Today is Labor Day (Thursday) I will have been in Seg 3 weeks I have kited property 4x, Unit Manager 1x, talk personally with every C.O. C.W. Sergeant, Cor that has walked by. I and I have also filed an emergency grievance about my property. I still to this very day I have not recieved my address book, envelopes, notebook, nailclippers.

Whats a person to do. I have 6 letters and legal mail that needs to go out. Not recpt week, two weeks ago.

They know Im Bi Polar with anxiety problems. To me it feels as though they do this to me on purpose.

I have changed my life so much in 2 yrs. If people would just slow down and take the chance to recognize it.

Additional Comments regarding segregation status:

I believe that when inmates are on Protective Custody Status and the caseworker comes to tell us that we are going to leave the hole, they shouldn't be able to say either you leave or you stay and receive a Misconduct Report and lose all your stuff. That's not fair.

I also believe that while in Segregation P.C. inmates should not be allowed to be on the same gallery as inmates from general population, basically when inmates come to the hole that are Protective Custody they should have their own type of gallery. A P.C. gallery and possible 2 P.C. galleries.

If an inmate has a past of Mental Health issues and is still having issues that inmate should be placed in a facility to receive help instead of at a facility where there's only 4 Mental Health Providers, no matter how much time they have to do in Prison, myself for example.

I believe that there should be better ways of punishing somebody they
leave them in the hole for years over little things. We live with 900
inmate that are guys that will be fight. Since the hole in Tecumseh has
200 bed in Seg, They think they have to keep us in the hole for so
long your mind start thinking stupid things after being in here for so long.
I believe they should be under different reason for putting somebody in
the hole. They don't give enough food that it make you mad. Plus
if you ask for help it take weeks or weeks to get answer that
it drive you insane. Because they don't give a fuck about us. They treat
us like dogs, which is bull shit

I + is such mental torture already to be taken from
everything you lost in society. But when I am set
a punishment and do my punishment then I Don't
know what will happen with being AC'ed I +
could go on for years. They need a program
where we could work thru our problems
help communication somehow to get off of AC
to lessen our time in AC.

I have graduated SAI program, Seven Habits program and
Two years service at CSI, Almost three years write up
free before last march when I refused cello just to move
out of unit with alot of trouble. But the put me back in
same unit now I'm feeling alot of AC time because ~~that~~
the staff refused my request to move out of unit.

Additional Comments regarding segregation status: I think when one is placed in Seg No matter what level there on they should be able to attend order some food and have also ~~the~~ more phone calls instead of having one phone call a week we should be allowed two to three phone calls a week No matter what level your seg status is we all think that we should be able to shower 7 days a week and have yard 7 days a week as well. Also we should be allowed to clean twice a week no matter your level. As for programs to help you successfully succeed in General Population and society they don't offer us much of any thing except for the transformation packet. Also As well as staff treating us with respect that's a big fat NO. They treat us like crap and say things that irritate us and expect us not to get upset when they say the things that they do. For example we don't have a clock to see what time it is. So we ask the cpl or staff what time it is. The staff's reply to the ? asked is Time for you to shut the fuck up Very unprofessional. Also I had mental health to see me via FIR-kite and medical reply's with an answer saying you have an upcoming appt with Dr. Butler M.D. in the near future if you need medical or mental health assistant's contact mental Health. Also as many times as I've been down to seg I see ^{the} some people that have been down here for 3+ years and losing their minds do to lack of programming

Please see to fixing the way segregation is ran ~~so~~ that inmates can do good in CP and in society.

Seg status at TSCI is a Joke

Case managers are lazy or they know no information because they don't care.

I've been in Seg for 3 months because PC is full but they (Warden Gage) refuses to transfer me to Nsp/ACC where I could be in G.P. My wife has cerebral palsy and can't travel for visits. They (my case manager) knows this information but still I sit in seg.

Anger management.

- 11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

General Population isn't possible for me ever at tSCI, NSP, or OCC or LCC because of enemies made by helping stop prison gangs and helping staff prevent crimes in prison and helping law enforcement in criminal cases of Nikko Jenkins and Joshua Whitlaw. But work ethic camp provides programming that I could benefit from to reintegrate successfully back to life in a free society. In seq, I could benefit from one on one counseling with a counselor or mental health doctor, and medications

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what **programs** would be helpful for you to return to general population or to society as a whole when you leave prison?

No Program could help me return to general population due to threats to my life by the prisons uncontrollable gang issues + violence. But to help me return to society they could help by helping me get my social security card + Birth certificate so I can go ~~to~~ to get my driver license and get a good job Asap upon release.

Additional Comments regarding segregation status:

I'm now in segregation due to threats on my life by gangs in the prison system that were serious enough that I decided to go see mental health and make up a story about me having a plan of escape and to harm other people to accomplish that plan so I could be placed on Administrative Segregation until I am released. That's why im in segregation originally. Since then ive continued to recieve death threats from inmates at TSC I that are murderers and in prison for other serious crimes of violence. Even Protective custody here is not safe due to the easy access and communication with inmates from general population and Protective custody. So for me seg is the best place I can be til released next year. Or transfered to work ethic camp in McCook or to a County jail that's now housing state inmates for the D.O.C. But the prison staff refuse to allow such a thing to happen for no good reason. I pose no threat to any safety or security. I am within less than 1 year of my mandatory release and could benifit tremendously from work ethic camp or work release, or they could transfer me to Protective custody at NSP and im almost certain id do well and be fine. But anything short of that I won't be safe and will be better off in the smu here so I can get home safely and cause no problems to defend myself from harm or death by dangerous Prison gangs & murderers. I don't know why I was chosen for this questionnaire, as I am no longer on seg. status and have only been in seg. one time for one month. If you would more info about what really goes on in segregation, speak with my cellmate, who is helping me to fill out this form. Christopher M. Payne has been in segregation over a dozen times, for five (5), six (6), ten (10) months at a time, often with no misconduct report or for minor infractions. He has seen the true colors of the prison administration and their treatment of seg. inmates (i.e. spitting in food, forced medicating of inmates, use of force for minor infractions, placement of inmates on limited property for simple infractions, refusal to provide inmates simple needs, such as books or magazines), which cause a breakdown in the mental health of even the sanest of person.

Additional Comments regarding segregation status: The only other thing I would like to add is that programs and mental health programs should be offered to "everyone" not just people that are a short timer or close to getting out if you want to better your self you shouldnt have to hear you have to long of a sentence come see us later. Like with me I came to prison ^{at} 16 years old and have life without parole when I first was locked up at NCPF (Nebraska Corr. Youth Facility) I was allowed to take mental health class talk to a Counselor one on one once a month or more if need and I believe I've made alot of possitive changes but know I still need program. like helping understand why I made decisions the way I did, drug and alchole treatment I even need help/learn how to fill out a job application file taxes, learn how to use a computer there are alot of things. I am worried about I've been in prison since I was 16 Im 32 now that's 16 years and with LB 44 being passed there's a chance I could be resentenced and possible paroled in 4 more years and there needs to be some kind of programing to set me and others up for parole. ^{one} class that many need back here is for SEX offenders I talk to many of them and there worried about going to take it in general population because other sex offender go out and get beat up and come back before they get to take or finish the program. Me personal I want help and need it but ever since I lefted NCPF I hear the same thing your sentence is too long this class is for people with 5 years or less. I say if you want to better yourself you should be allowed to even if you have a life sentence because even if you (I) dont get out maybe I could talk to and help other people that get locked up with what I learned. Please pass a bill in Legislature for programing of all kinds for people in General population, protective custody regardless of how much time your doing thank you

Additional Comments regarding segregation status: In protective custody unit I am in there are 4 sections population about 117 to 128 inmates in one section 32 persons, out of them 20 men are doing 10 years or more. I believe Dept of Corrections staff feel that people ~~that~~ who aren't getting out soon don't need any programs. When Robert Houston was in front of the legislature & investigative committee he said that inmates in DC get out to mingle with other inmates, that was not true. Each section gets out at different times for day room (45 minutes) and outside rec (1 hour) each day. The only mental health, medical, dental that is received is by sending a interview Request to those departments. When seen by mental health time per session is twenty minutes to one hour once a month usually. I haven't seen any inmate get more. The only thing that I have seen the Department do is get rid of more & more programming & rehabilitative opportunities for inmates. While on parole I went to a seminar at the Community Action Program which covered all areas of support for an inmate after they were released. Now I feel that the people who represented their respective assistance programs, I feel would be best served if they addressed an inmates need before they were released. The person who was in charge of this seminar was named Angela. I feel as an inmate that having a support group, job, and for sure housing upon being release is the most important solution to intergrate an inmate back into society.

we are not given any sort of programs here.
and possibly when my parole Board finally gives me a program I will have
to move to other facility to complete it so I can get home faster.
* also it's very hard to convince the parole Board to take the
programming out in the community, that would mean I will need a
final faster, to put in for work Release and take the same
programming out there.

* Because alot of times the programs are full Because only
few facility's have them and their always Packed.

Additional Comments regarding segregation status:

(On Protective Custody)
they don't provide the programs that we do need
to complete, for the one's that are planning on
paroling soon and if we don't complete the programs
they will make us do our full term and it's not
fair to us that are not violent criminals.
And as for the one's that are not able to walk
on the yard (to the fact of our lost of things)
such as myself. There needs to be programs
for us so that we can find our self back in
society. Things need to be done for us. We
are always in a room (cell) 22 ~~hrs~~ hours a day

Thank You for Your Time.

Additional Comments regarding segregation status:

I've been down here for almost 3 weeks I went to CCL and was there for about 70 hrs when I requested to return back to P.C. Cause of Gang relations I stopped being a Gang member but members from my Gang wouldnt let me so they tried to pressure me back in. Anyway my complaint is I've been here almost 3 weeks and havent been told whats going on with my classification status. I dont think its right. Havent contacted me about nothing.

Additional Comments regarding segregation status: Often people who do things for staff on a regular unit do not spend much time at all in the hole. They can get into a fight and be back on the unit in a day or two while others spend weeks, if not months. When people come to the hole they are not given information about what they can or can not do, what programs there are, ect. People should be treated as people no matter what kind of mental or other problems they are having. But we end up being yelled at and called names by those we are suppose to go to about a problem. If you say you feel like hurting yourself or someone else they treat you as if you have already done these things. What all was really needed was someone to listen and respond to what is needed. Such as more medication or a change in medication. But how can that be done when more often then not there is no one around who can do that? There is no help, no way out, no one who will listen. So why even try.

Additional Comments regarding segregation status:

While in segregation the Mental Health staff have been great but the Medical staff have been really rude to the inmates in Seg. Plus PA Luebbe lies about conditions and makes false information to get people off meds that a provider from BGC has ordered - He does not follow protocol - I have a letter from Randy Kohl MD and in the letter he sent me copies of letters from PA Luebbe that states he would like to take me off all my pain meds because he thinks I'm faking it or abusing it. "The nurses administer my meds"

I have had 2 Hernia Surgeries, Got my guts out by a boat motor accident, Eye Surgery, Lower Back Surgery, Spinal injections and Shoulder surgery and soon the other one is going to be done but yet he thinks I'm faking my pain "Lets Get Real" the medical staff here get paid to give us inmates the least amount of care possible and no matter what we say or write in this Comment Section on the other side will have NO effect on how we get treated. Even if you do make a "new law" The medical team will not follow it. Shawn Luebbe is above your law - believe that, He took me off all my pain meds and now has me on a weak med because he thinks I'm faking it, I and all other inmates feel that you and other Senators really don't care about our health - You never in person to interview any of us about our Health and See

12) When on segregation status what **programs** would be helpful for you to return to general population or to society as a whole when you leave prison?

To have it where sex offender are completely segregated from other offender.

Please provide any additional comments below:

Additional Comments regarding segregation status: Look you all don't realize how hard it is for sex offenders to get the help they need when they are in constant fear of being stabbed or jumped by multiple people. We cannot get the help we need because either we get run out by violent offenders to P.C. or we have to go to the hole like I am for fear of our lives for one mistake. They really need to just build a prison for just sex offenders so they can get the help they need to become productive members of society and be able to be forgiven by their victims and who ever else they hurt. I really think the programs would help if they were implemented to sex offenders as soon as they arrive at the prison and not having to wait. That way they get 5 or 6 years of the program and not 9 week to 3 years of it.

Thank you

Please provide any additional comments below:

Additional Comments regarding segregation status: my additional comments are that staff member case worker Lance McCord has been giving me the wrong medication which effected me seriously badly, and the staff has swept it under the rug and still to this date he hasn't been punished, or suspended End Card. Mental health also gave me a medication that specifically says don't give to a person with the history of seizures. I have a history of seizures and I ended up in the emergency room twice because I was seizing and losing consciousness and around other things. I wrote to mental health and I haven't talked to or giving a reply until after all this happened. also medical won't take me seriously for my medical issues. I need to be on a heart pill they won't give me. I need surgery they won't do, and I have had an infection in my hands for the last 9 months and it is still going on. the Dermatologist (an outside doctor says he would like to see me every two weeks until the infection is gone, it don't happen. They give me medical attention that only masks the problem like rather than taking care of my knee hips and back, they only give me injections that are medically proven to do more harm than good. I need my teeth fixed but I was told that I need to be in prison for 3 years before that will help me. the only thing they will do is clean them and they gave me a phone number to call on the outside (1800 Denture) I wouldn't see the dentist, still if they were taken care of here. I need special bed things for support for my bad back have never been help for that. I have allergic reactions to the Maximum Security Shampoo and Soap they took me. I would have to find somebody to send me money to buy my own.

Additional Comments regarding segregation status:

They need to have programs available while in PC for us to take care of our court ordered requirements. Just because we cannot live in general population because of other inmates doesn't mean the system can refuse us our programming. Even if it has to be done on a slower basis or one-on-one basis, they owe it to us to get the programming we need in order not to be committed after our incarceration and cost us years and the state a huge amount of money for what should have already been done.

Thank you

August 18, 2014

Dear Sir,

As Chairman of the Department of Correctional Services Special Investigative Committee of the Legislature, I am requesting that you, as a person in segregated housing, share with us your observations of restrictive housing. In particular the committee is interested in the quality of your access to mental health treatment and the availability of various programs that will allow you to successfully transition both back to the general population of the prison and to succeed when you return to society.

Please use the enclosed form to respond to our questions and to add additional comments. Please reply by September 10, 2014. Your responses will be included in the record of our investigation and will be used to potentially make recommendations for new laws and changes in the operation of the Nebraska Department of Correctional Services. Your identity will be confidential in the record.

The Special Committee has **not** been authorized to undertake individual advocacy, recalculate individual sentences, or examine complaints beyond the scope set by the Legislature in April. Those matters are best handled by you, your lawyer, and the Department.

Thank you,

Steve Lathrop

Additional Comments regarding segregation status: I Believe SMU, is Full of Potential Given the opportunity to help Inmates reform.

It Definately needs more Program's, I believe if more time was spent on Programing than just locking away, would help with the mental stability of Inmates and Growth.

SMU could actually be a whole program in itself if given THOUGHT and care.

SMU needs more job's

Additional Comments regarding segregation status: I been in Tecumseh since 2013 and from what I have observed for myself, leaving inmates that are in segregation for long periods of time ^{isn't} ~~are~~ ^{anything} ~~nothing~~ to better them. We only get one phone call a week and that's after we reach ~~the~~ Level 4D which takes about 5 to 6 weeks to reach. 3 showers a week which are 15 min long. our visits are through monitors. How do you expect us to make our way back to society of general population when we are constantly being isolated by our own government. I don't see or understand how a being in the whole for a mutual ~~of~~ education for long periods of time is going to benefit either party. They seem to place Hispanics in the whole for little or nothing, for extensive periods, on minimum custody but yet again are housed at a maximum prison.

Additional Comments regarding segregation status: I've been in segregation since 6/30/11. I haven't had an MR (misconduct report) in 22 months. I have interacted with staff and everyone I have come in contact with appropriately. I don't cause problems, I don't get in trouble. I have completed the Meteor program and I'm three weeks away from completing the Explorer program. I have done everything that was asked of me and even gone out of my way to go beyond what they have asked of me. They didn't even offer the Meteor group to me, I asked them for the program. Since 6/30/11, I have never seen the Warden, the deputy warden, the associate warden, anyone who is in charge of my segregation in the administration has never talked to me, spoke to me about what they want from me or what they expect from me to get out of the SIMU. They never told me exactly how long to expect to be in the SIMU. They decide on a recommendation of your classification without first hearing from you, what you have to say, what you have been up to. I have felt that I'm trying to meet the administration half way but I don't have a partner to compromise with.

Thank you!

Additional Comments regarding segregation status:

I know you said you can't look at individual cases, but I'm going to tell you a short version of mine because it is not unique to just me. I was brought to segregation my first week that I was in prison for hitting an officer twice in a neutral dining at ICC on February 18th 2011. I've been in the SNU at TCM since every since. I did 3 years on an Intensive Management Unit that is all solitary that I can't make eye contact with people in conversation anymore, because I've forgotten how to be social. The only faces you see at all down there are those of the corporals bringing your 3 meals. I would go periods of 7-8 months without ever hearing the roll. I gave up on going to Classification hearings after a year and a half because you can see in their faces that they only give you the 4 month reviews to come up with what things they're doing. Every 14 months I get a paper that gives me 4 more months. In the almost 4 years that I've been in the SNU I've had ONE misconduct report that I got 14 days of disciplinary action for, and that was over 2 years ago. Outside of that I've been to maxed inmate, on the highest percentage level that I can reach. I've been the gallery porter and up to B since I got off of Intensive Management in February. I just got 4 more months this week. I also had a conversation with my case manager Howard last week that confirmed what I've been thinking all this time. When I asked why I'm still down here after all of this time with nothing but good behavior, having received 2 to 4 years added onto my sentence for what I did, and having spent almost 4 years in segregation on top of that, I asked when was it going to be enough? He told me "they wanted a pound of flesh for what you did." This has nothing to do with "Safety or Security of the institution." This is wide spread vindictive behavior at the cost of

None that I have been informed about. The Segregation (Incentive) Levels Program is not a "Mental Health" program

8) How often are you contacted by a mental health practitioner? Never since May 2nd, 2014
Typically, how much time do they spend with you? Five to Ten minutes in an area that is not conducive to confidentiality. And only after the inmate initiates contact

9) What programs are available to you in segregation status?
Only the Segregation (Incentive) Levels Program which is automatic and participation involuntary. Inmates participate simply to achieve an incentive, otherwise no inmate would participate. Not participating keeps inmates from moving to higher levels

10) What programs are part of your individualized plan, but are unavailable to you at your current housing level? None Currently

11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

More and better one on one, and condition (such as; depression, anxiety, PTSD) specific treatment more extensive. Note: there are other factors of the conditions of segregation particular to TSCI that contribute to the break down and deterioration of the Mental Health of inmates. Until and unless those specific factors are dealt with and eliminated no form of Mental Health treatment will do any good.

12) When on segregation status what programs would be helpful for you to return to general population or to society as a whole when you leave prison?

Additional Comments regarding segregation status: Attached is an overview, and detailed description of three major factors that contributed to the mental health deterioration and breakdown of inmates in segregation, that, unless corrected first - no amount of treatment (Mental Health or otherwise) will rectify the problems that create (what we inmates term) "Nikko Jenkins Syndrome." I have been in segregation here at TSCI since I was transferred here from NSP, December 4th, 2013. I have spoken to many other inmates here in segregation both on AC and IM and have observed through both my own experience here and treatment of other inmates here by staff to know that what I have described in the attached paper is not limited to me, but segregation-wide here at TSCI. Inmates I have spoken to, who have transferred from segregation at LCC to here (TSCI), have told me the same thing I would say of my own comparison of the conditions and the treatment of inmates in other facilities (LCC and NSP) segregations and the segregation here at TSCI; that TSCI needs to be audited, investigated, and overhauled (in a nutshell).

Although I appreciate the efforts made by the members of our great state of Nebraska's Legislature, your interest lay with the interests of society OUTSIDE of prison, and the state's image; whereas my interest lay with the conditions of prison, its affect on my mental stability, as well as, society outside the prison (in terms of my family's safety). That is why in addition to sending you people the information I provided on the attached, I am also sharing and working as closely as I can with the ACLU. Furthermore, I am pursuing litigation through § 1983 civil lawsuit in Federal Court. I cannot emphasize enough how much these "factors" I've described are a detriment to your endeavor(s) concerning this matter, and contribute to the reason(s) prompting those endeavors in the first place. THANK YOU for your time and concern.

* Please Contact me. I have valuable information to include documentary evidence showing specific factors that contribute to the creation of what we inmates have termed "Nikko Jenkins Syndrome" among other mental health

Inmates at the Tecumseh State Correctional Institution are being systematically warehoused in segregation. It is believed that this is being done as a means to curb overcrowding in general population and to obscure the problem of overcrowding here at TSCI from outside scrutiny. The way this is being done is through a) The Disciplinary Process; b) Administrative Segregation; and c) The Segregation Levels Program.

A. The Disciplinary Process

The disciplinary committee chairperson (Pamela Hillman), and disciplinary authority are subjecting inmates in segregation, who are on Administrative Confinement (AC) and Intensive Management (IM) statuses to penalties that are very disproportionate to the seriousness of the offense committed by these inmates, as well as, handing down penalties that are harsher and more severe than like situated inmates in other facilities under the Nebraska Department of Correctional Services (NDCS), such as Lincoln Correctional Center (LCC) and Nebraska State Penitentiary (NSP). For example, inmates in segregation, upon receiving a misconduct report (MR) that exhibits a charge, that charge being ONLY the second offense in the past six months is automatically sent to the "Institutional" level of the disciplinary committee (IDC), which is considerably different than the "Unit" level (UDC), where at the UDC level an inmate may be penalized with disciplinary segregation and/or loss of good time (DS and LOGT, respectively). Those penalties cannot be handed down on the UDC level. [We're talking SECOND OFFENSE!] Once the MR is heard at the IDC level, chairperson Pamela Hillman, whenever she cannot deem an offense as "serious", she will deem it "flagrant", due to it being the inmates second offense in six months, justifying a penalty of disc. seg. Only offenses deemed "serious" or "flagrant" can result in DS or LOGT. In most cases, these incidents and offenses are relatively minor, nevertheless, these offenses are being met with disproportionate penalties that are harsher and alot more severe than like situated inmates at other facilities for similar incidents and offenses.

B. Administrative Segregation (AC and IM)

The manner in which the disciplinary process is applied, it in turn, majorly affects

- CONTINUED -

inmates on Administrative Confinement and Intensive Management statuses in terms of whether or not an inmate is continued on AC or IM status, or removed and/or placed on a lesser restrictive status.

In most cases, goals are given by the Unit Classification Committee (UCC) to inmates on AC and IM to achieve in order for them to be removed from their status on AC or IM, or to a lesser restrictive status. One of such goals are - No Misconduct Reports. To be fair, there are and have been cases where inmates have been removed from AC or IM, or placed on a lesser restrictive status, having received MR's since their previous reviews where the goals are given; so (more accurately) would be that inmates receive no misconduct reports that result or may result in disc. seg. However, again, considering the manner in which the disciplinary process is applied to inmates on AC and IM (as detailed above), that goal is all but impossible to achieve.

Another goal given is "Sustain Successful Participation in the Segregation Levels Program". The manner in which the Seg. Levels Program is managed by the Special Management Unit staff to oversee the Program, makes that goal all but impossible to achieve as well. For like situated inmates at NSP (I have no direct knowledge of how the Seg. Levels Program is managed at LCC) unless an inmate receives an MR that results or is highly likely to result in disc. seg., an inmate will not be dropped (demoted) in levels; and in cases where demotion occur, that demotion will be a 1 Level demotion. Here at TSCI, inmates are dropped completely to the beginning Orientation level having to start all the way over for ANY and ALL misconduct reports no matter how ~~serious~~ major or minor the misconduct reports are. Successful Participation in the Seg. Levels Program entails achieving level (7A) and transferring to the less restrictive 1F segregation gallery, or No Demotions and/or transferring to 1F. Again, the manner in which the Seg. Levels Program is managed here at TSCI makes it very difficult to achieve that goal, as a requirement for inmates to be removed from AC and IM statuses, or placed on a lesser restrictive status.

*C. Segregation Levels Program

* The problem and issue of how the Segregation Levels Program, as it contributes to the warehousing of inmates in segregation on AC and IM statuses, is detailed above under "Administrative Segregation" and need not be further detailed here.*

Please provide any additional comments below:

Additional Comments regarding segregation status: We are getting too much segregation time for things that are bound to happen anywhere and anytime. People with known mental health issues should be able to get help with their problems because being locked in segregation 23 hours a day is only making it worse. The Department of Corrections think putting inmates in segregation will help keep the institution safe but the people that are sitting in segregation are getting worse because of their mental state. Segregation is truly a waste of space in the penitentiary. Segregation causes mental health issues to worsen especially when the inmates aren't getting the proper treatment and the proper punishments. The punishments in Tecumseh is too harsh and really need to be looked into. They are giving too much seg time and AC for non-violent misconducts. Do inmates deserve harsher punishments for petty things than violent offenses.

Additional Comments regarding segregation status:

1. Despite NDCS•TSCI established policies, procedures, regulations and post Orders, the staff who are placed within TSCI•Housing Unit One-F Restricted Housing are not properly trained for this area, there is no contant staff placement (meaning NDCS rotates new staff in daily), they are not familiar with Unit rules and operations (they mostly are informed by the inmates as to how things operate, etc in this Unit (A HUGE SECURITY BREACH AND FAILURE) which leads to daily problems, chaos, excess noise and lack of control.

2. I have been told (by mental practioners, legal authorities,etc) that I have mental dieesease and defect -- I find restricted housing to be "BENIFICIAL" for my personal environment and activities and living (mental capacity and operations). I have become more stable and able to function somewhat better. Furthermore, I would like to be in "Solitary Confinement"--no access to the sight and sound of any other inmate -- but NDCS doesn't offer this option to me. They have punishment and property withheld segregation status', but nothing of "solitary" with me being able to have all my property, etc, in such a 'solitary" status that would be even more beneficial -- especially when there is such chaos, excess noise, disrespect and lawlessness within the inmate/prison environment -- what I am trying to get away from!

I thank you for all your time and services.

Additional Comments regarding segregation status:

Inmates are kept on administrative confinement for much too long of time periods. I have been on A.C. in Seg. for 10 months for a non-violent offense. I don't enjoy my time soon and I feel mental messed up due to how confined in segregation I have been. I have received NO treatments while I've been in segregation for the last 10 months. I will be released to the streets soon and I am worse off mentally then when I came in to segregation. I just don't feel this is right.

Additional Comments regarding segregation status:

Mental health is non-existent. There are no programs for SEG inmates even though 95% of us are required by the dept and the parole board to do programming before parole. No programming is offered to P.C inmates either in or out of the protective custody unit, making it that much harder to do appropriate programming needed for parole. I have a parole final for March 2015 but have to do SAU/BTC substance abuse but am also in P.C and disciplinary SEG making it impossible to get programming. I've been parole eligible since July 4th 2012 and in prison since 2008 but have no chance at parole if I don't do the previous SAU/BTC which has a 6 month waiting list + a 1% success rate. Almost all the inmates in SEG are in the same "catch 22" situation with no body to help. The Administration says work with housing unit staff, but they never answer our "Kites" and we still sit in SEG. We're told to work with mental health but rarely get seen by an actual DR and get actual help by them. All we get is buried in SEG when most of us are ready, willing and eligible to be paroled if not for a Scope Great program, no one to help us except the Admin. that put us here + kept us here. I was taken off all but 1 of my medications with no other solution available other than to "kite" mental health + I've been on the list to be seen for over 4 months. And as long as on that 1 medication, whether it works or not, I'll be classified as "properly medicated" so they can cover themselves. Nothing about this system is working. We need help but no body ever does help. Something needs to be done And soon! We have no advocates, no mental health, no programming + until they become available we'll have no hope to succeed.

Additional Comments regarding segregation status:

I am being treated like an animal in segregation. It is causing me to have panic/anxiety induced seizures. Staff/inmates all play mental games with me. I need someone's help. I have no where to turn. I've been in A.S., P.C. my whole number besides a few months all I know is confinement. I don't know how I will be when I get out. I need help getting my SSI for my bi-polar, schizoaffective and other mental health problems I have. N.D.C.S. has kept me in solitary confinement my whole prison number. I know I made some bad choices but I am being treated like a monster. I wrote EMERGENCY on here because this is an emergency. I don't know how far staff and inmates can push someone to their breaking point.

- 11) When on segregation status what mental health treatment would be helpful for you to return to general population or to society as a whole when you leave prison?

LR 424 Department of Correctional Services Special Investigative Committee of the Legislature

12) When on segregation status what programs would be helpful for you to return to general population or to society as a whole when you leave prison?

All I need to do is my CVORT programming however this facility refuses to let me out of Segregation.

Please provide any additional comments below:

Additional Comments regarding segregation status: I feel my ethnicity is impeding my chances of getting out of Seg. I only say this because the white man that I committed my crime with was let out of Seg 5 months ago and in August I went to see the classification Committee and again I was recommended another 4 months. I have been in Seg for 3 years, I came from DEC in 2011. It is my belief that the state of Nebraska has thrown me away, Racism runs deep in the TSCI facility and I am a victim of extreme prejudice. When ever the committee meets they don't even bother asking me if I want to go they just mark me down as refuse. I am the type of person who has been bullied his whole life so I tend to just let other people walk all over me and push me around so it's easy to just push me around and forget me. I am a victim of negligence. So you want to know how seg is it's bullshit. The punishments do not fit the crimes in TSCI. For mine I got 5 years to 5 years, 1 year loss of non restorable good time, and I have been in Seg for 3 years and I can't get paroled unless I complete my CVORT but in order to do so they must let me out of Seg first. So what I am trying to say is the treatment of Inmates is not only unfair it is also inhumane and the living conditions are even worse.

I don't care about confidentiality or staff retaliation so please fill free to come talk to me.

Additional Comments regarding segregation status: It seems like the administration uses Segregation as a way to control prison population. I think that Segregation should be used for people that need to be taken away or out of general population. There are a lot of people currently in Segregation for offences that I wouldn't judge to be worthy of the penalty. Segregation should be for people who get in fights not for a person that got a tattoo. Also they use the term "Security threat group" to throw people into Segregation far more than they should in my opinion.

* -I don't condone fighting- but the way we are packed in here and locked inside 23 hours a day together leads to disagreements. People should be given some soft of seg. time for fights. But 6 months to a year or more is excessive in my opinion.

* I do hope this helps, and I hope that you can help push for some change in a system that is obviously broken.

I have been to all the state prisons that have the sau program and I have not been able to complete it because I have had to be in PC, and all because I'm in PC and haven't finished the SALL Program I can't go home, I don't feel that this is fair. I'm in PC because I don't want to get into anymore trouble and lose more good time because I want to go home to my kids a family. My dad died 4 months ago and my father in law died 3 days ago, my family needs me now more then ever and no one cares, the only reason I'm still hear is because ~~di~~ haven't finish the SALL Program and I can't do that because if I get out of seg, I be fighting and I lose more good time, and that will keep me away from my family, so all I can do is sit here every day and pray that god watch's over my family, untill I'm set free. I know you people don't care cause I mean nothing to you. But it's just that something about this that isn't fair. I'm in PC to stay out of trouble, but it's doesn't help my time it's just not fair.

Additional Comments regarding segregation status:

my charge is Manslaughter and 3rd degree assault
on a confined person. Serving a sentence of 15-21 years.
I am my time December 18, 2014. Haven't had no
classes, programs up to date. I would like to have
a grace period / transition back into population and
back into (society) I have a wife and a 17 years
old daughter - whose a senior in High School. I would
like for an opportunity to go to Work Release
to gain adequate job skills and build goals and responsibilities
that will have a positive and genuine impact that will help
me succeed in life outside of prison. If I am to gain
my number from segregation which is about 115 days
give or take. How does that option benefit my overall
mental health. To be released from segregation
left to depend on the vices I came to prison with.
I have family support and Alcohol and Narcotics
group therapy available within the community. Place
of residence - Job opportunities. But in the end I'm
stuck in segregation with no other option except to
gain my time in solitary.

Additional Comments regarding segregation status: I was placed on I.P.C 2011 because of "administration" "investigation", found that the Gang members Seranos had a "hit" out on me. Released me back to G.P, Because parole board wanted me to do the S.A.U program. I was assaulted and received nine Staples and Seven Stiches, treated unconsision and had Swelling on the brain. And Now again I am on I.P.C and get Classified every four months. I am Over fifty years old and weigh less then One hundred and fifty pounds. I wrote numerous "Kites" to administration to speak to them, Refuse this assault took place and even predicted it would happen. I have all request as well as in my Inmate file. N/O investigation was done after this assault, and I have filed a Small Claims against the inmate who tried to kill me. Yet D.O.C has done nothing but placed me in a cell with another inmate and lock me down twenty one hours a day Seven days a week. The County attorney refused my request to formally Charge this inmate for his actions, and I also filed a lawsuit against D.O.C in the federal Courts. You could Check my files about "all" I'm writing about. Please DO. So I'm being punished because of a known gang member actions. I'm been "Warehoused" to grow old!!

Additional Comments regarding segregation status:

Since I have been in PC I've noticed that the Death row inmates get more rights than we do. ~~we~~ ~~are~~ ~~not~~ ~~back~~ Here As A punishment ~~we~~ ~~are~~ ~~in~~ ~~the~~ ~~cell~~ ~~23~~ ~~-~~ ~~23~~ hours away so it causes us to be irritable. And ~~we~~ have problems with our cell mates. The yard we have is only a quarter the size of any other unit causing us to have to go out 8 rooms at a time. And also causing the one basketball we get to be popped by the razor wire easily. I haven't seen mental health one time since I've been here. I can't ~~get~~ Parole because I can't take SAU causing me to be here longer than I need to. They don't even allow us to have church or NA. Also, just because 2 inmates have a keep separate on each other I don't see why we all have to suffer. We should be able to have Dayroom all day like every other unit. We don't get to go to the big yard or to the gym. But yet death row gets to. ~~we~~ When we ask for help or anything from the staff we get treated like we were nothing because we're in PC. Some of us aren't even back here because we want to, some don't have a choice. Also, even our visiting is limited ~~we~~ since we're all the way out in Tecumseh some of our people drive over 100 miles just to get an hour and a half visit then have to drive back home all night.

Protective Custody / Segregation Inmates

Additional Comments regarding segregation status: We need programs in the Protective Custody / Segregation unit. We have NO programs or mental health treatment. Most of us need Substance Abuse treatment or Anger Management but we can't do those programs because they are only offered to General Population AND we can't go to General Population because we have issues with gangs and because of the crimes we committed. Protective Custody / Segregation Inmates need more yard time and dayroom time to better our mental health and lower tension between cellys. We are locked down 22-23 hours a day and I believe it's damaging to our health as well as our mental health. Also, most of us are fathers and I believe a Parenting class would benefit us greatly. I know Religion is a touchy subject, but I feel we should also be able to have religious services as well. Well THANK YOU for taking the time to hear what we have to say and I hope some changes are made to better our mental health and our health and so we can prepare ourselves to transition back into society.

Thank You,

Additional Comments regarding segregation status:

The isolation really affected my psychological balance -
 The noise levels are maddening but the institution will not sell ear plugs. They try to get you to go mad -
 It looks deliberate and very strategic. They poke at you daily with little behaviors such as spitting in your food and doing anything and everything to de-humanize you. They prolong, as much as possible, things that we are entitled to such as personal property.

The grievance process is a complete farse.

The Classification system also fails to validate their overrides. When they decide to keep you on A.C. for another 4-month period, they do not truly give you the due process or hearing in that they fail to hear you out or reason things out. It's an arbitrary process.

They often lie and assert you are not eligible for phone calls - we are only permitted 3 but ~~at~~ general pop. get 7 per week. Even though we are technically not suppose to be punished while on A.C. phone calls to family are very important, especially in isolation.

~~to be honest I don't know what to say about this. I've been in seg for a long time and I know it's not good for you. I've seen people who have been in seg for a long time and they're not the same. I've seen people who have been in seg for a long time and they're not the same. I've seen people who have been in seg for a long time and they're not the same.~~

Seg is not a fun place to be. It wasn't designed to be fun. At the end of the day we are there because we put ourselves there. The fact is seg works. I am not engaging in activity that will put me back in seg. ~~So~~ too much solitude can drive people crazy, but you people obviously know that judging from this questionnaire. Something needs to get figured out, at this moment you have people who have been in seg for over a decade and it may be too late for those individuals. I guess what I'm saying is it does not take a decade in seg to not want to return. 1 year or more in seg is a different thing to bear. Maybe your focus should be trying to get people out of seg instead of ~~teaching~~ teaching individuals how to cope with seg.

Additional Comments regarding segregation status:

Seems like staff at Terenceh put inmates on I.S. or Segregation status for the smallest things.

Like they just need to fill all the empty cells / Segregation cells.

And when your in there you can't contact Case Managers or nobody even if you push the emergency button someone may come by 2 hours later and say "what do you want"

Additional Comments regarding segregation status: as far as Segregation goes I have some comments/questions. I'm 45 yrs old farmed & ranched all my life until I got here. Why dose Segregation have to be so cold in the cells. Trust me it's not fun. Why are female staff allowed in the Segregation blocks, especially in Seg because the showers are open so the women staff can look in and see you make I have a huge problem with that. I look at it if there is something morally wrong to do on the outside of the prison, then it's wrong on the inside. I honestly will say with no doubt that a good portion of the female staff I would consider predators for what they get away with in here. Why are the food portions so small in seg and in general population. because I get child support taken out of my 24 dollar per check I'm forced to live off of 12 dollars a month to buy my hygiene products (they are not supplied to us) so I go w/out alot of hygiene supplies I really need. Let alone to be able to buy food from the canteen (store) to even eat what they don't feed us. how come staff can lye on misconduct reports and we get introuble and or taken to the hole for things we don't even do. This last time I went to the hole I got 30 days in seg. 30 days loss of good time I lost my 16191 for 6 months and in total I received 45 days cell restriction. Then after I spend 5 days in seg for something I didn't do they decided to let me out but I still lost all the good time!! Why can't I get it back if they decided they were wrong and let me out 25 day early. The prison staff need to understand the judge sentenced us to prison as our punishment they should not be punishing us more when we get here. Being here is punishment enough. I have a whole lot of other questions / comments I would love to ask you / tell you about. IF you are interested I would be very happy to talk to you further. especially about why were not even off programming until after we become eligible for parole? Isn't the idea to

Additional Comments regarding segregation status: i've been locked down in segregation for some of the smallest things: I arrived at T-S-C-I and was placed in SMU due to bed space I was told also I was placed in SMU so that another inmate could be moved to my cell "A room" where there was nothing wrong with me. I was housed, I was moved so that my roommate at the time Khalid Muhammad. I believe that's the spelling, could work with one of his family members when that's the institutions job. I understand the guy was in SMU for time but he should have received the proper treatment while there. I asked for fairness, if I was being moved for these reasons then I should be able to move also well I want to go so I refused to move to the housing unit were they wanted me to go. Also at T-S-C-I were placed in SMU for whatever reason and the only thing were told is pending investigation, need finding out why, what not any evidence of wrong doing. If someone wants me moved from a unit all you have to do is send in a request stating whatever and your subject to SMU status. I was attending visiting at around 12:00 to 2:20 session later that night I was taken to holding placed in SMU and was told that a guard over heard someone tell me to pay up I and the other guy both up in holding pleading that it wasn't true but we still went to SMU. At T-S-C-I we are subject to SMU often due to the lack of bed space, its more bed space in SMU and not in general population so general population is subject to go to SMU to keep everyone moved or moving around till T-S-C-I can move inmates to other institutions taking a toll on our mental health causing us to mentally break in which assaults do occur, not saying its right but here were treated to like were not human, visited) Also with no one to which anyone can complain to. We need help here

Additional Comments regarding segregation status: I WAS THE ONE WHO ASKED FOR SAU PROGRAMMING WHEN THEY QUESTIONED ME AT DNE. IT WAS THEN PUT ON MY INDIVIDUALIZED PLAN WHAT I REQUESTED AND NOW BECAUSE I'M NOT ABLE TO DO THE PROGRAMMING THAT IS NEEDED TO MAKE PAROLE I WAS TOLD BY SAU PROGRAMMER'S AND D.O.C. STAFF IF I DON'T FINISH THE SAU PROGRAM I WILL HAVE TO MAX MY TIME. I'M GOING TO A PAROLE HEARING 9/24/15 AND BECAUSE I CAN'T FINISH THE PROGRAM I WILL NOT GET PAROLE AND MY MAX DATE IS AS OF NOW 8/18/16 I DO HAVE 191 LAW 3 DAYS EXTRA A MONTH AND I'VE RECEIVED ALL MY TIME TOWARD'S THE 191 LAW'S. I BEEN DOWN SINCE 9/25/12. I HAVE THE FIRST PHASE OF S.A.U PROGRAM COMPLETED AND THERE ARE 3 PHASE'S OF THE PROGRAM. I'M NOT GONNA TAKE A CHANCE AND FINISH THE PROGRAM AND HAVE TO WORRY ABOUT LOSING ANY GOOD TIME BECAUSE SOMEONE HAS A PROBLEM FOR WHAT EVER REASON. YOU HAVE TO DO WHAT EVER YOU HAVE TO, TO STAY A LIVE OR TRY NOT TO WORRY ABOUT GETTING YOUR TIME TAKEN AWAY. BECAUSE YOU TRIED TO AVOID ANY ISSUES. I WANT TO DO WHAT EVER I HAVE TO. Additional Comments regarding segregation status:

I'm currently on P.C status and there are "NO" programs available and there never have been programs to help benefit myself for a better future as I stated I'm in P.C status and I'm here because administrative staff know all about the gang violence on nebraska prison yards but those of us who are trying to better ourselves only have two options go to the yard and have violence took upon us and end up in the hole or Administrative confinement are do as I'm doing now come to P.C but be held out of programming that is asked of me to do by my family the parole board so I'm being hurt mentally by staff and held from my family by the parole board because I'm trying to stay safe and away from trouble but can't do the programming that is asked of me by the parole board.

I would also like to state the staff have no room to place more inmates who want and need P.C as myself I was held in "the hole" seg. status for six months its the wait to get to the P.C unit. The treatment inmates on P.C get by staff is horrible administration pays P.C inmates no attention P.C inmates get the worst of the worst of everything its craves the inmates that contribute to the violence get better treatment than me. I ask your office to do a special investigation just on how P.C inmates are being treated by administrative staff please look into my complaints thank you for your time

Additional Comments regarding segregation status:

It's my opinion that not being around drugs that I can better off doing patches on substance abuse by myself. I'd get the same amount of help telling myself the same self-help stuff I'd tell another inmate.

If you could some how get substance abuse programs down here in J.M.U. It'd be much appreciated.

Same as with COURT

Please consider my suggestions.

Thanks you
