PRESIDENT: Thank you. (Gavel.) Ladies and gentlemen, we're ready to begin the introduction of bills and some of you I understand would like to hear what the bills are about, so while I don't wish to spoil your fun and visitation with each other, kindly hold it down so that those that wish to listen to the introduction of the bills may do so. We anticipate that this will probably go on until about noon and, of course, free to do whatever you would like to do. Thank you. Mr. Clerk, the introduction of bills.

SPEAKER BARRETT PRESIDING

SPEAKER BARRETT: Thank you. Proceeding to the next item on...from the Rules Committee. Chairman Lynch.

SENATOR LYNCH: Mr. President, members, the next one is number nine identified on your list. It specifies that a motion to suspend the rules is not divisible. The reason for this, without reading it all but putting it hopefully in laymen's terms so we can understand it, is that when a motion to suspend the rules is attempted it's intended to accomplish only one thing. You don't suspend the rules to accomplish three, four, five or six different things. But, if the amendment that would accomplish one thing would, for example, suspend Rule 1, Section 2, Rule 2, Section 3, Rule 3, Section 4, because it's necessary to do that to identify those sections of the rules that serve that single purpose, you cannot divide the question and take any one of those three rule changes independently. I think, Mr. President and members, that explains the purpose and intent of this rule change and would suggest that we support it.

SPEAKER BARRETT: Thank you, Senator Lynch. Discussion on the proposal...proposed change number nine? Senator Chambers, please.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, let me tell you what the real purpose of this rule change is. There have been attempts at various times to suspend the rules so that there can be no debate or discussion or amendment on bills, and I have indicated that I would divide that question. So the purpose of the rule is to prevent that from happening. So however many things are put into a rule suspension will have to be taken as a package. In some instances you may have a situation where people will think and believe that you should be able to suspend the rules for the purpose of taking a vote without any additional debate, amendment and so forth. And maybe that is all right. Naturally, I'm opposed to it because

PRESIDENT: Thank you. We'll move on to Select File, number 2, LB 257. Mr. Clerk.

CLERK: Mr. President, 257 is on Select File. The first order of business are Enrollment and Review amendments, Mr. President.

PRESIDENT: Senator Baack, would you handle that, please.

SENATOR BAACK: Sure, I would move that the E & R amendments be adopted.

PRESIDENT: You've heard the motion. All in favor say aye. Opposed nay. They are adopted.

CLERK: Mr. President, the first amendment I have to the bill is by Senator Pirsch. I have a note that she wants to withdraw, Mr. President.

PRESIDENT: Okay, she is present somewhere. We'll withdraw them and check to make sure that's correct.

CLERK: The next amendment, Mr. President, is by Senator Withem. Senator, your amendment is on page...well, it was printed last year.

know where I am in, in that scenario. I guess I am pleading, at some point, at the crowd watching both sides with all good intentions and sincerity, fighting to the end, and I'm asking you, the crowd, when will you finally have mercy at some point and say to the people of Nebraska, we have other things we have to do? Because I know, and so do you, that if you say, isn't this interesting, let's bring them back again, that the gladiators, as the paper this morning, I think, showed to pride, some ego and a lot of personal feelings will come back and perform for you again. And this time it's time for the body to take charge and it's time for you to lead and it's time for us to move. I move we adjourn.

PRESIDENT: Mr. Clerk, do you have something for the record?

CLERK: Mr. President, your Committee on Judiciary gives notice of hearing for February 1. That's signed by Senator Chizek as committee Chair.

Mr. President, Senator Hartnett would like to add his name to LB 1140.

Mr. President, Senator Haberman would ask unanimous consent to add the names of all members to LR 247. Mr. President, it was the resolution for Senator Jacobson that was considered this morning.

Commission has the authority to do this now or we have refused to give them authority. I will remind you that under one of the other provisions of the current Constitution, which also is retained in this proposed amendment, which is the Regents v. Exon case, if you look at an Attorney General's Opinion that came down on LB 890 in which they were specifically asked whether or not the Coordinating Commission would be given a series of powers in the areas of nursing, and that Attorney General's Opinion very specifically states that the Coordinating Commission, because of that Regents v. Exon case, could not constitutionally be delegated any kind of authority over the current Board of Regents or, for that matter, the board of trustees because of those limitations. And so with the constitutional amendment, we will, in fact, and it, in fact, is the only way in which you can...that is the only way you can provide any coordination between systems or between institutions, compared to what we have now, is through a constitutional amendment giving it to the Board of Regents as proposed here. Otherwise, you would have to give it to the Coordinating Commission. As it is composed now, you could do that by constitutional amendment...

PRESIDENT: One minute.

SENATOR WARNER: ...but it would seem to me a far less desirable approach than what is proposed. So I would urge the body to reject the proposal and continue the concept of governance by institutions and recognizing the cooperative and coordinative efforts will be a responsibility, both constitutional and, in fact, of the new Board of Regents in those instances where institutions should be working together.

PRESIDENT: Thank you. Senator Crosby, you're next, but may I take just a moment to introduce our doctor of the day from Senator Wesely's district. We have Dr. Denise Sammons. Would you please stand, doctor, so we may recognize you and thank you. We do appreciate your services for the day. Senator Crosby, please, followed by Senator Wesely.

SENATOR CROSBY: Thank you, Mr. President, and members, again, I just simply want to emphasize the fact that what I'm talking about is research. I think all these programs that have begun to reach out from the Medical Center and from the University of Nebraska here, to Chadron and other...the Scottsbluff Center for Learning, and so on, that's wonderful, but I'm talking about
