SPEAKER BARRETT PRESIDING

SPEAKER BARRETT: Thank you. Proceeding to the next item on...from the Rules Committee. Chairman Lynch.

SENATOR LYNCH: Mr. President, members, the next one is number nine identified on your list. It specifies that a motion to suspend the rules is not divisible. The reason for this, without reading it all but putting it hopefully in laymen's terms so we can understand it, is that when a motion to suspend the rules is attempted it's intended to accomplish only one thing. You don't suspend the rules to accomplish three, four, five or six different things. But, if the amendment that would accomplish one thing would, for example, suspend Rule 1, Section 2, Rule 2, Section 3, Rule 3, Section 4, because it's necessary to do that to identify those sections of the rules that serve that single purpose, you cannot divide the question and take any one of those three rule changes independently. I think, Mr. President and members, that explains the purpose and intent of this rule change and would suggest that we support it.

SPEAKER BARRETT: Thank you, Senator Lynch. Discussion on the proposal...proposed change number nine? Senator Chambers, please.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, let me tell you what the real purpose of this rule change is. There have been attempts at various times to suspend the rules so that there can be no debate or discussion or amendment on bills, and I have indicated that I would divide that question. So the purpose of the rule is to prevent that from happening. So however many things are put into a rule suspension will have to be taken as a package. In some instances you may have a situation where people will think and believe that you should be able to suspend the rules for the purpose of taking a vote without any additional debate, amendment and so forth. And maybe that is all right. Naturally, I'm opposed to it because

SPEAKER BARRETT: The Chair recognizes Senator Hall.

SENATOR HALL: Thank you, Mr. President, and members. The amendment that I would offer after the rule suspension is the bill that I introduced in the form of LB 901 to the Business and Labor Committee. It is a bill that had virtually no opposition. I think there was one individual that testified in opposition, but when he realized that he would not be impacted by the bill I think backed off on that opposing testimony and just talked about some of the issues in the bill. What it would do is it would increase the state minimum wage to match the federal minimum wage and the increases that have been put in place and that will be put in place for the next couple of years. If you remember, Congress passed that bill last year. If you remember back to 1987, this body passed, seven years later, the state minimum wage bill that mirrored the federal minimum wage. It took us seven years to, basically, catch up for the employers that we cover that don't fall under the...excuse me, that do fall under the federal floor. In other words, anybody who doesn't meet the federal requirements as an employer does not have to meet the minimum wage standards. Well, as you know, Nebraska has its own standards by which an employer qualifies so that there is a gap there from those people, because the state's is a lower floor, there is a gap for those employers who are at or below the state minimum and when the federal minimum would kick into place. What my amendment would do is take the contents of LB 901 and place it as new sections to LB 313, Senator McFarland's bill, and it would just have the State of Nebraska, those employers who fall within our minimum wage laws meet those same requirements that we ask...that the federal
